Honors Biology Powerpoint Notes - Mr. Curtis' Biology Site

Find out what the animal likes to eat and look for signs of its dinner. If you cannot find any sign of the creature you wish to study, you may wish to select a different one. For your field study, take a camera, notepad, and pencil. Take copious notes of everything you see. When you are finished with your observations, start organizing your notes and combine them with the information you gathered from the library books to write your report.

Biology Notes - Academic and Honors Biology

The Biology curriculum is designed to continue student investigations of the life sciences that began in grades K-8 and provide students the necessary skills to be proficient in biology. Biology is the study of living things. An understanding of biology therefore, results in a better understanding and appreciation of life.
